

i-WiLL Introduction

No more printing requests!

“i-WiLL” is a web shipping system that allows you to easily prepare for shipping, manage information, etc. using the web environment of your computer.

You can also check the shipping status of your shipment, receive email notifications, and download customs documents.

Please take this opportunity to use “i-WiLL”.

*Image refers to our group company's website. This is different from our actual web page.

Main Functions

Point.1

Just fill out the form in creating CWB or Invoice !

Create shipping documents by simply copying and pasting consignee data. You can also retrieve the previous shipping data, making it even easier to arrange shipments from the second time onwards!

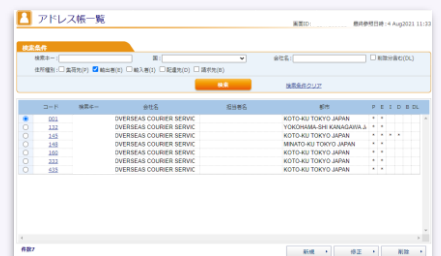

Point.2

From the website, easy pickup request !

Since the collection information is registered in advance by OCS, you can arrange the collection simply by entering the date and time and cargo information. You can make your request at any time without having to wait on the phone.

Point.3

Bulk registration of consignee information to address book !

Once you register in the address book, you can save yourself the trouble of entering consignee information every time you create a waybill.

If you have any questions regarding use, please contact to OCS Frankfurt (+49-(0)6107-70569-20 / Weekdays 10:00-17:00)

Please feel free to contact us.
